NITRA LIFE INDUSTRIAL NITROGEN

NITRACUT BY NITRALIFE

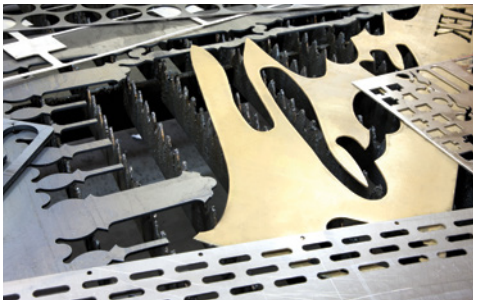
Nitracut Nitrogen Systems are on-site nitrogen gas generators custom-built to provide a continuous, reliable supply of Nitrogen Assist Gas for most laser cutting applications.

Produce your own nitrogen gas as you use it, at a fraction of the cost of cylinder nitrogen bundles or liquid bulk.

FEATURES AND BENEFITS

No downtime when running out of gas and no more delivery charges.

No additional cost of refilling tanks or replacing cylinders.



The nitrogen gas is generated on-site and on-demand.

Nitrogen generators are *modular* in design: literally any volume can be produced.

Installation takes only a few hours.

Small footprint. The system can stand next to your laser cutter if required. No need for piping and manifold rental.

SPECIFICATIONS

Model
600 / 1200

Maximum recommended nozzle
<2mm / <3mm

Maximum pressure
14 bar

NITRA LIFE INDUSTRIAL NITROGEN
